

## **Experience HW 01 SSW 567**

### **1. What challenges did you encounter with this assignment, if any?**

**Ans:** The main challenge I faced with this assignment was while writing the test cases for it. I had to make sure that all the possible test cases and scenarios were covered.

### **2. What did you think about the requirements specification for this assignment?**

**Ans:** I found the requirements specifications to be clear and to the point. I was able to understand the specifications clearly and it helped me in the assignment as well.

### **3. What challenges did you encounter with the tools?**

**Ans:** I usually use Pycharm or VS code as my IDE but for this assignment I decided to use Spyder as my IDE. I did not face any specific problem with it. It took me a little while to understand it but I was able to complete the assignment successfully.

### **4. Describe the criteria you used to determine that you had sufficient test cases, i.e. how did you know you were done?**

**Ans:** The only criteria that I had in mind and used was to cover all the cases. I made sure that all the triangles are correctly classified and all the test cases were working.
