

HW 4a – SSW 567 WS

Author: Vamshi Krishna Vittali

Link to Github Repo: <https://github.com/vamshivittali76/SSW-576-Fall-23>

Description: While writing the code for this assignment, I found the concept of CI and using travis CI a little confusing. But after doing a bit of research and reading up on the documentation, I was eventually able to figure it out. I feel that I still need some more experience and training especially in writing the .travis.yml file.

Regarding the code, I found the assignment to be straightforward but faced a few issues while running the code and had to wait for a few hours for the GitHub Api request limit to reload. Apart from that, this assignment helped me understand the concept of Continuous integration.
